## Aurora Carbonell

Alcaldessa de Sitges

**Sitges és una vila oberta, diversa, integradora, tolerant i cosmopolita de fa molts anys.** Valors intrínsecos en el nostre tarannà, en la manera de ser de les sitgetanes i els sitgetans, perquè Sitges és així. Una vila respectuosa amb tothom amb independència de la diversitat d'identitats sexuals i de gènere.

Sitges reivindica i defensa amb llibertat i respecte els drets de les persones LGTBIQ+ i volem fer visible la diversitat sexual i afectiva, que tothom s'hi vegi representat, especialment aquest col·lectiu, perquè el món ha de reflectir que és divers, plural i inclusiu. Aquesta és una riquesa de la societat que cal preservar i conservar ja que encara avui dia cal demanar la plena igualtat jurídica i socials, i lluitar contra qualsevol tipus de discriminació.

Al llarg de l'any des de l'Ajuntament de Sitges ens sumem a diverses commemoracions com el Dia de l'Orgull LGTBIQ+ o Dia per l'alliberament Lesbià, Gai, Transexual, Bisexual i Intersexual (28 juny), el Dia Internacional contra la LGTBI-fòbia (17 de maig) i el Dia Internacional per la Visibilitat Trans (31 de març), a través de les quals ens referem amb un compromís i un missatge ben clar: som una vila que respectem els drets de les persones lesbianes, gais, bisexuals, trans i intersexuales i amb tolerància zero davant de la discriminació per motiu d'orientació sexual i identitat.

Cal fer més passos endavant i des de Sitges ho hem de fer amb polítiques i mesures per garantir que les persones LGTBIQ+ es mostrin tal com són i puguin tenir la igualtat d'oportunitats i sense cap tipus de discriminació.

A les vostres mans teniu una revista que es reparteix coincidint amb un dels esdeveniments més emblemàtics i reivindicatius de l'estiu com és la Pride Sitges al voltant del Dia de l'Alliberament LGTBIQ+ (28 de juny).

Enguany, la Sitges Pride 2022 se celebra del 8 al 12 de juny amb més de 80 actes culturals i lúdics. El principal plat fort serà la tradicional desfilada de la Sitges Pride, que aquest any porta per lema "#sitgeslovesyou" amb 20 carrosses i més de 2.000 participants. Al voltant d'aquest acte multitudinari l'associació LGTBIQ+ Colors Sitges Link impulsa el Cultural Pride, amb la col·laboració d'AFGAL, un programa que inclou activitats culturals i socials i que ja està consolidat.

La pandèmia de la Covid-19 ha impedit durant els dos últims anys la celebració d'aquesta desfilada però enguany, ja sense cap restricció, tornarà a ser més participativa i reivindicativa que mai.

**Sitges es, desde hace muchos años, una población abierta, diversa, integradora, tolerante y cosmopolita.** Valores intrínsecos en nuestro talante, en la forma de ser de las sitgetanas y los sitgetanos: Sitges es así. Una villa respetuosa con todos con independencia de la diversidad de identidades sexuales y de género.

Sitges reivindica y defiende con libertad y respeto los derechos de las personas LGTBIQ+ y queremos hacer visible la diversidad sexual y afectiva. Que todo el mundo se vea representado, especialmente este colectivo, porque el mundo debe reflejar que es diverso, plural y inclusivo. Ésta es una riqueza de la sociedad que hay que preservar y conservar, ya que todavía es necesario pedir la plena igualdad jurídica y social, y luchar contra cualquier tipo de discriminación.

A lo largo del año, el Ajuntament de Sitges nos sumamos a diversas conmemoraciones como el Día del Orgullo LGTBIQ+ o el Día por la liberación Lesbiana, Gay, Transexual, Bisexual e Intersexual (28 junio); el Día Internacional contra la LGTBI-fobia (17 de mayo), y el Día Internacional por la Visibilidad Trans (31 de marzo), a través de las cuales nos afianzamos con un compromiso y un mensaje bien claro: somos una villa que respetamos los derechos de las personas lesbianas, gais, bisexuales, trans e intersexuales y con tolerancia cero frente a la discriminación por motivo de orientación sexual e identidad.

Hay que dar más pasos adelante y desde Sitges debemos hacerlo con políticas y medidas para garantizar que las personas LGTBIQ+ se muestren tal y como son y puedan tener la igualdad de oportunidades y sin ningún tipo de discriminación.

En vuestras manos tenéis una revista que se reparte coincidiendo con uno de los eventos más emblemáticos y reivindicativos del verano como es la Pride Sitges alrededor del Día de la Liberación LGTBIQ+ (28 de junio).

Este año, la Sitges Pride 2022 se celebra del 8 al 12 de junio con más de 80 actos culturales y lúdicos. El principal plato fuerte será el tradicional desfile de la Sitges Pride, que este año lleva por lema "#sitgeslovesyou" con 20 carrozas y más de 2.000 participantes. En torno a este acto multitudinario la asociación LGTBIQ+ Colors Sitges Link impulsa el Cultural Pride, con la colaboración de AFGAL, un programa que incluye actividades culturales y sociales y que ya está consolidado.

La pandemia de la Covid-19 ha impedido durante los dos últimos años la celebración de este desfile pero este año, ya sin restricción alguna, volverá a ser más participativa y reivindicativa que nunca.

**Sitges has been an open, diverse, inclusive, tolerant and cosmopolitan town for many years.** Those are intrinsic values in our temperament, our way because Sitges is like that. A respectful village for all regardless of the diversity of sexual and gender identities.

Sitges vindicates and defends freedom and respects the rights of LGBTIQ+ and we want to make visible the sexual and affective diversity, we want everyone represented, especially this group because the world must reflect its diversity, plurality and inclusiveness. This is a great wealth for our society, and even today we must demand full legal and social equality, and fight against any discrimination.

Throughout the year, Sitges City Council joined various commemorations such as LGTBIQ+ Pride Day or Lesbian, Gay, Transsexual, Bisexual and Intersex Liberation Day (June 28), International Day Against LGTBI-phobia (May 17) and International Day for Trans Visibility (March 31), through which we reaffirm our commitment and a clear message: we are a people who respect the rights of lesbian people, gay, bisexual, trans and intersex and with zero tolerance for discrimination on the grounds of sexual orientation and identity.

Sitges need to take more steps, and we need to do this with policies and measures to ensure that LGTBIQ+ can have equal opportunities without discrimination.

In your hands, you have a magazine that is distributed coinciding with one of the most emblematic and vindictive events of the summer, such as the Sitges Pride LGTBIQ+ Liberation Day (June 28).

This year, the Sitges Pride 2022 will be held from 8 to 12 June with more than 80 cultural and leisure events. The main course will be the traditional Sitges Pride parade, which this year has the motto "#sitgeslovesyou" with 20 floats and more than 2,000 participants. Around this mass event, the LGTBIQ+ Colors Sitges Link association promotes Cultural Pride, in collaboration with AFGAL, a program that includes cultural and social activities and is already consolidated.

The Covid-19 pandemic has prevented the celebration of this parade for the last two years, but this year, without any restrictions, it will be more participatory and inclusive than ever.

# Sitges:

## a cosmopolitan and vibrant city with a unique charm

Nature has also been generous with the Sitges: the town has the great privilege of being located on the shores of the Mediterranean and at the foot of the Garraf massif. In the cultural sphere, the legacy is extraordinary: art is very much alive and traditions are maintained with modernity. It has preserved important references from past times and the old fishing village and offers visitors an important architectural heritage. In addition, it enjoys a cosmopolitan character thanks to the heterogeneity of its population, where more than 70 different nationalities coexist. Sitges aims to remain a city that attracts and seduces.

**The beautiful, charming and festive Sitges is one of the most fascinating tourist resorts on the Catalan coast.**

A few minutes from the centre of Barcelona, with more than 20 kilometres of coastline, the town is a popular destination for gay travellers. They often say that the cosmopolitan Catalan population is one of the gay capitals of Europe. During the day there is a relaxed, open and pleasant atmosphere, gay couples are at ease having fun and socializing on the beach, and at night a large number of gay clubs and bars enter into play.

With the arrival of June, and the ensuing high temperatures and warm weather, one reminisces about long journeys on the beach or the glorious sunsets on any of the terraces on the seafront; a relaxed dinner in any charming place, while you taste any dish of delicious Mediterranean cuisine, and long festive nights. Sitges is a beach town, relaxed by day, but with a truly amazing gay nightlife around Carrer Primer de Maig, Plaça Indústria, Calle Joan Tarrida and Carrer Bonaire. A magic ambience. The town has always been a place that has charmed tourists and artists. The great secret is its beautiful light and 300 days of sunshine a year, as verified by the artists who, at the end of the 19th century, settled there.

*Enjoy international lunch and dinner at the most peaceful part of Sitges, on the San Sebastian beach. A true pleasure for your senses with amazing sea views.*

# Culture

Heritage with an added value and a vibrant and freshly intensive cultural agenda

in Catalonia, also it contains other collections, including works by Greco and Picasso. The Stampfli Foundation exhibits an outstanding collection of contemporary art, and the Romantic Museum (now under construction) specializes in the 19th century. There's also the Maricel Palace, an architectural gem of Noucentisme that can be visited at specific times

**The Festival Village.** Sitges holds around 15 festivals throughout the year, some having international projection. Fantastic Cinema (October) is the most important, there are others such as Jardins de Terramar (July-August), the LGTB + Endimaris cinema (May), the Sitges Next advertising (November), Jazz Festival (April) or Sitges Dona (September), among several proposals.

**Culture is one of Sitges' identifying traits.** At the end of the 19th century, a homegrown generation of impressionist painters obsessed with the luminosity in paintings emerged and, shortly afterwards, the town became a modernist hub promoted by Santiago Rusiñol. Sitges has always been in communion with the arts, such a flame is alive and reflected in our heritage, in the occurrence of many different festivals, and the close relationship of many artists with the population.

**Modernism and Noucentisme** were two cultural and aesthetic currents that modernized and brought Europe to Catalonia at the end of the 19th century and the beginning of the 20th. Sitges was one of the most important irradiation points. Today's legacy is an impressive architectural ensemble of remarkable value. The large number of mansions and large manors built by returning Sitgetans from Cuba is a good example. There are also majestic architectural ensembles like Maricel, Mercat Vell, Miramar, Jardins de Terramar, among others.

**1.000 years of art history.** The magnificent heritage is also evident in the array of museums in town which cover a wide range of history. The Maricel Museum goes from Romanesque and Gothic to the 20th century. Cau Ferrat is one of the main museums of modernism

# Shopping

A walk  
around brands

Sitges is a remarkable commercial hub in terms of variety and quality. With a long history as shoe makers and artisans, the town offers a wide range of shopping options. Even considering that the town is rather small, there are several options at the center offering a large variety of clothes and accessories.

The municipality flaunts more than 500 different concerns selling clothing and accessories, crafts, decoration and art galleries. In addition, the flexible opening hours of the shops make it possible to buy any time. While some close at noon, from 10 a.m to 2 p.m and from 5 p.m to 8.30, many do keep their doors open throughout the day. During the summer, they can extend opening hours to 21 hours or more, adapting to demand.

There are a few streets right in the center around Cap de la Vila, such as Carrer Major, Carrer Sant Francesc, Carrer de les Parellades and Carrer Jesus, which are entirely truffed with a large number of shops. In these streets you can find from clothing to quality gastronomic products. On top of shopping, you will enjoy the most famous streets in the old town.

Just to put it down in a few words, strolling through a maze of alleys you will discover many Top Brand clothing stores, as well as souvenir shops, curios, decorations or just a place to drink a coffee and relax.

# Gastronomy

## Dishes to enjoy the best cuisine

Precisely, the Malvasia de Sitges is also one of the main legs of the town's gastronomy and the most representative wine, which differentiates Sitges from other towns. With a very fine texture and an aromatic and sweet taste, it is made with the grape variety that bears its name: malvasia. It is distinguished from others from all over the Mediterranean by the climate of the Garraf Massif.

Apart from the typical Sitges dishes, in the town, you will find a wide range of quality restaurants with a varied offer: pizzerias, oriental restaurants, fusion cuisine, places with a wide range of tapas ... In short, options for everybody.

Beyond the sun and the beach, one of the things that visitors look for when they arrive in Sitges are restaurants to enjoy the local, Mediterranean and universal cuisine. In Sitges, you will be able to discover unique dishes and wines, typical of the town and with many different flavors that will always remain in your memory.

Most dishes are typically Mediterranean, such as rice and fish, but if there is one star dish it is, without a doubt, the popular xató. A first course that is curiously consumed in winter, around Carnival, despite being a kind of salad that can be enjoyed at any time of year. It is made with endive, crumbled cod, tuna, anchovies, arbequina. But the special grace and touch is the sauce that gives the dish its name: the xató sauce. The sauce is made with toasted almonds and hazelnuts, garlic, nyoras, fried bread, oil, vinegar and salt.

Another typical dish is the Sitgetana rice, a typical dish that fishermen cooked when they went out to sea. It combines seafood, such as prawns and cuttlefish, with mountain products, such as pork chops and sausages, as well as fish and meat broth in equal parts. One feature that makes this rice unique is that it is made with Malvasia de Sitges.

7 beaches in the same municipality

**Sitges is a town configured mainly around the sea.** The municipality begins on the other side of the Garraf massif, near Castelldefels, and also ends after another range of mountains, the Colls - Miralpeix. All along this coastal

In this strip of land, there are beaches: up to 17 different ones, from large beaches with piers to small coves of different characteristics and sizes, which have in common the Mediterranean sun.

The 17 beaches makes Sitges one of the most touristic municipalities in Catalonia. In 2022, the beaches of Sitges are launching their new bars and services, which will allow the image to be updated and modernized and provide even better features.

With this new vision, the beaches will come to life during the entire day and night. During the day as spaces to enjoy the sea, the sun and all kinds of services. At noon and at night they become a space for lunch or dinner à la carte, with increasingly elaborate gastronomic proposals. And from the evening they are a stage of events, with parties, concerts, where you can enjoy the magic of the sunsets in the Mediterranean.

Long beaches and smaller coves. Urban and other natural beaches. Family beaches and other nudists... Sitges offers a complete offer to enjoy the sea and its services as we deserve.
